# Defendoor LOW-VIS | Doors & Windows

Heavy Duty Privacy Mesh Security System

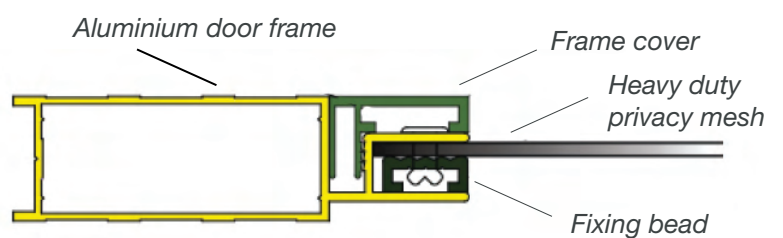

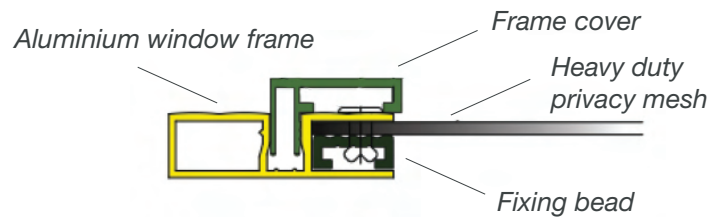

## DEFENDOOR LOW-VIS

When privacy is top priority, Defendoor LOW-VIS mesh is a strong, 3.0mm perforated aluminium sheet, powder coated and corrosion resistant. This mesh limits the field of vision from the outside looking in and with correct lighting conditions this allows a person on the inside to see outside while remaining unseen.

The Defendoor LOW-VIS range consists of:

- Hinged Security Doors
- Sliding Security Doors
- Security Window Screens
- Patio Enclosures
- Privacy Screens
- Fixed Screening

## BENEFITS & FEATURES

Compliant with Australia standards AS5039 and AS5041

Restricted vision for privacy

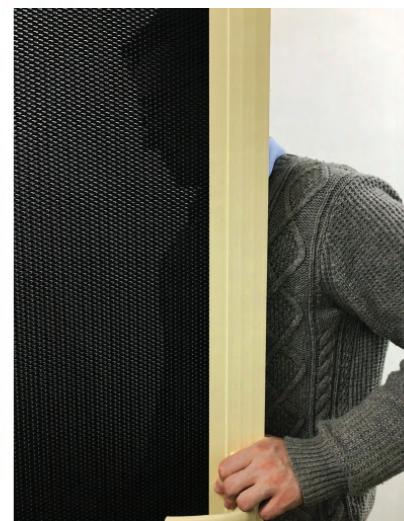

Insect and vermin resistant

Resistant to damage caused by household pets

Easy to clean and maintain – corrosion resistant

Affordable security system for your home

Easy to fabricate and install

# Defendoor LOW-VIS | Doors & Windows

## Heavy Duty Privacy Mesh Security System

### AUSTRALIAN STANDARDS

The Defendoor LOW-VIS Heavy Duty Aluminium Privacy Mesh Security System for hinged and sliding doors and window screens are fully tested and meet the requirements of Australian standards AS5039 and AS5041, including the following:

- Dynamic Impact test
- Pull test
- Jimmy test
- Knife Shear test
- Probe test

Custom built and manufactured in Australia to certified Australian standards.

### CARE AND MAINTENANCE

Your Defendoor LOW-VIS Heavy Duty Privacy Mesh for hinged and sliding doors, and window screens will require regular cleaning and maintenance.

We recommend using SUPA WASH CONCENTRATE biodegradable cleaner – please see cleaning instructions provided. Alternatively, if no SUPA WASH CONCENTRATE is available, it is recommended to use a soft bristled brush with warm water and a neutral PH detergent. Abrasive cleaners and harsh detergents are not recommended as they can scratch or damage the surface area.

The following table indicates the suggested frequency of maintenance:

ENVIRONMENT	DEFINITION	FREQUENCY
Mild	15km from coastal / rural / suburban areas	Every 3 months
Moderate	10km from coastal / high traffic areas	Every 3 months
Extreme/Coastal	5km from coast / marine / heavy industrial areas	Every month

### WARRANTY

A 12 month film integrity warranty applies from the date of installation (subject to regular care and maintenance which is required to comply with your Defendoor LOW-VIS warranty).

Defendoor LOW-VIS Mesh is an Aluminium system stringently tested to comply with Australian Standards AS5039 and AS5041.

Regular maintenance is required to comply with your Defendoor LOW-VIS mesh warranty.

Mix 3 caps (25ml) per Litre of water. It is recommended to use a soft bristled brush or non-abrasive cloth, then rinse with water.

SUPA WASH CONCENTRATE is:

- non-toxic
- user-friendly
- biodegradable
- environmentally friendly
