Full Framed Shower Screens

DIMENSION - FULL FRAMED

Full framed built for durability.

Why customers choose it:

Great protection in the case of an accident

Reliable hardware and seals for constant use

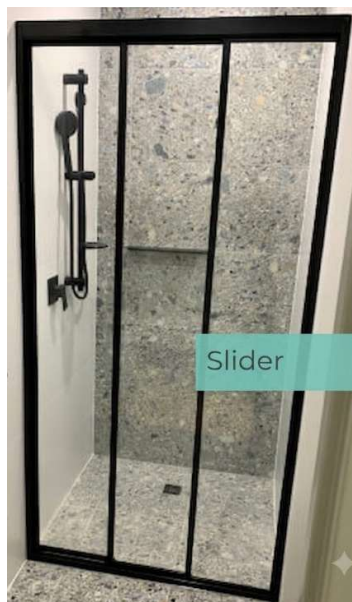

features a door drip gutter to prevent drips when exiting.

Flexible configuration options for unique spaces

Typical configurations:

- Traditional two sides
- Three-side corner
- Straight line
- Stepped dogleg

Sill-less entry option available

SLIDING - FULL FRAMED

Full framed built for durability.

Why customers choose it:

Great protection in the case of an accident

Smooth adjustable rollers

No swinging doors allowing drips outside shower

Flexible configuration options for unique spaces

Typical configurations:

- Traditional two sides
- Straight line
- Stepped dogleg

MAINE - FULL FRAMED

Versatile framed panels ideal for custom enclosures, replacements, and tailored bathroom layouts.

Adaptable panel system for a wide range of applications

Durable framed construction for everyday reliability

A practical, cost-effective solution with a elegant finish

Easy to integrate into existing or new bathrooms

Sill-less entry

Typical configurations:

- Rectangular Fluted Glass
- Rectangular Clear Glass
- 500mm Radius Curved Fluted Glass

Semi-Frameless Shower Screens

OPTIMA - SEMI-FRAMELESS

Semi-frameless style with a crisp, contemporary finish.

Why customers choose it:

- Clean, modern styling that suits most bathrooms
- Excellent water containment with a discreet frame
- Quality toughened glass for everyday durability
- Simple to install, maintain, and keep looking new
- Minimum standard height 1850mm tall

Typical configurations:

- Straight line
- Traditional two-side setting

Sill-less entry option available

EVOLUTION - SEMI-FRAMELESS

Semi-frameless solution with strong support and a refined profile.

Why customers choose it:

- Elegant slim framing for a premium bathroom finish
- Reliable hinge hardware designed for smooth daily use
- Easy-clean surfaces for low-maintenance appeal
- Flexible configuration options for unique spaces

Typical configurations:

- Traditional two sides
- Three-side corner
- Straight line
- Stepped dogleg

Sill-less entry option available

Semi-Frameless Shower Screens

MOMENTUM - SEMI- FRAMELESS

Space-saving semi-frameless sliding shower screen.

Why customers choose it:

Smooth, quiet sliding action for comfortable daily use

Ideal for bathrooms where space matters most

Premium components built for durability and longevity

Clean lines that bring a more modern, high-end look

Typical configurations:

Traditional two sides

Straight line

Stepped dogleg

Sill-less entry option available

DIAMOND GRILLE BARRIER SCREEN

The cost-effective classic for reliable home protection.

Reliable Security: Features a robust aluminium frame and a classic diamond grille design, providing a solid physical deterrent against intruders.

Enhanced Ventilation: Allows fresh air to flow freely throughout your home while maintaining a secure barrier.

Budget-Friendly: An excellent, cost-effective solution for those seeking security without compromising on essential functionality.

Customizable: Available in a wide array of powder-coated finishes to seamlessly match your existing home aesthetic.

Single point lock as standard

Security Screens & Fly Screens

STAINLESS STEEL, PERFORATED, DIAMOND GRILLE, PET PROOF MESH

PERFORATED BARRIER SCREEN

A modern, sleek aesthetic with superior privacy and airflow.

Contemporary Design: Features an aluminium sheet with precision-punched holes, offering a clean, modern look that complements contemporary architecture.

Excellent Privacy: The unique perforated pattern restricts the view into your home from the outside, providing enhanced privacy during the day.

High-Level Airflow: Engineered to maximize ventilation while maintaining a strong, corrosion-resistant insect screen barrier.

3 Point triple lock as standard

DEFENDOR SECURITY SCREEN

Maximum strength, maximum visibility, peace of mind.

Uncompromising Strength: Constructed with a high-tensile 316 marine-grade stainless steel mesh, offering industry-leading resistance to cutting and impact.

Crystal Clear Views: The fine mesh design provides high transparency, ensuring your view of the outdoors remains uninterrupted and clear.

Maximum Security: Exceeds Australian Standards for security, providing the ultimate protection for your family and assets.

Low Maintenance: The powder-coated stainless-steel mesh is exceptionally durable and requires minimal maintenance to keep it looking brand new.

3 Point triple lock as standard

Pet Door Installations

SMALL, MEDIUM, LARGE, EXTRA LARGE

SMALL ROUND

Best Suited For: Large Staffies, British Bulldogs, Golden Retrievers, German Shepards, Labradors, Collies, Boxers.

GLASS SPLASHBACKS

PAINTED ULTRA CLEAR GLASS, MIRROR TOUGHENED GLASS

MIRROR GLASS

Brighten up your kitchen and make it feel much more spacious

- Silver Toned
- Grey Toned
- Bronze Toned

PAINTED ULTRA CLEAR GLASS

Pristine Colour Accuracy:

Unlike standard glass which has a natural green tint, our **ultra-clear, low-iron glass** ensures your chosen paint colour remains true, vibrant, and undistorted.

Exceptional Durability:

This 6mm glass is **toughened and heat-strengthened**, providing superior resistance to the high temperatures generated by stovetops, as well as exceptional impact resistance for daily kitchen wear.

Seamless Hygiene:

The smooth, non-porous surface is incredibly easy to wipe clean, and because it is a single sheet, there are **no grout lines** to trap grease, food particles, or bacteria.

ENERGY GLASS UPGRADES

ACOUSTIC GLASS, UV PROTECTIVE GLASS, INSULATING DOUBLE GLAZING

ENERGY SINGLE GLAZED

Thermal Efficiency: Advanced coatings minimize heat gain in summer and heat loss in winter, keeping your internal temperature more consistent.

Cost-Effective Upgrade: An affordable way to improve your home's energy rating by utilizing your current window frames.

UV Protection: Significantly reduces the transmission of harmful UV rays, protecting your furniture, flooring, and artwork from fading.

Glare Reduction: Softens harsh sunlight, creating a more comfortable and glare-free living environment.

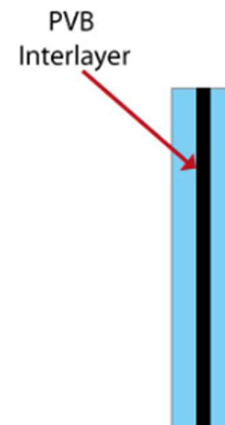

ENERGY TECH LAMINATED SAFETY

Advanced Safety & Security: The strong interlayer prevents the glass from shattering upon impact, acting as a powerful deterrent against break-ins.

Energy-Efficient Performance: Integrated technology works to block heat transfer, helping you maintain a stable indoor climate year-round.

Acoustic Insulation: The interlayer provides excellent noise reduction, effectively dampening external sounds from traffic, wind, or neighbours.

Total UV Block: Filters out damaging UV rays, offering the highest level of protection for your interior finishes.

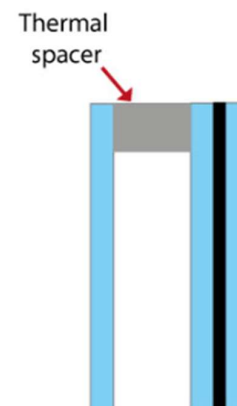

INSULATING DOUBLE GLAZING

Superior Thermal Insulation: The sealed air or gas-filled space between two panes of glass acts as a powerful insulator, drastically reducing energy bills.

Maximum Noise Reduction: The dual-pane system creates an exceptional acoustic barrier, ensuring a quiet, peaceful home environment.

Elimination of Condensation: Reduces the occurrence of internal condensation on windows, promoting a healthier home and preventing potential mould growth.

Year-Round Comfort: Maintains the perfect indoor environment regardless of the season, providing cooler interiors in summer and warmer spaces in winter.

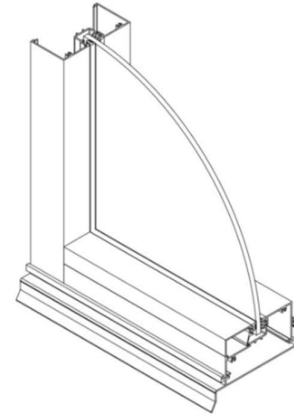

COMMERCIAL WINDOWS & DOORS

HINGED DOORS, SLIDING DOORS, FIXED WINDOWS, AWNING WINDOWS
